

DigiTel is affordable, easy to use, and will help you get more done in less time!

- Call DigiTel from any phone, enter your ID, and dictate.
- Up to 4 attorneys can dictate at the same time.
- Indicate PRIORITY work, record, pause, play back, and much more, using touch-tone control.
- The instant you complete a dictation, it is immediately available to your legal secretary.
- DigiTel runs in the background on your pc to answer your calls and record your dictations.
- DigiScribe runs on your secretary's pc to play back your dictations for typing.
- Designed by dictation experts who care about your success.

Imagine calling in your dictation from **ANY** phone, at **ANY** hour, from **ANY** location!

DigiTel makes this a reality! It gives you **FASTER** document turn-around, **REDUCED** secretarial overtime, and an **EARLIER** end to your work day!

DigiTel — “Legal Dictation Made *Easy*” from Apptec Corporation (*developers of next generation digital dictation systems for over 17 years*) makes your job of dictating legal documents **easier**, and your legal secretary's job of transcribing **faster**.

Now you can **instantly send** your dictations to your secretarial staff or transcription service.

And now your secretarial staff can **instantly retrieve** your dictations from any pc connected to the web.

DigiTel installs in minutes and is easy to use... we'll even install it for you and teach you how to use it, for free!

With DigiTel

- **Create documents faster** now that you can call in your work from any phone, with it instantly available for typing.
- **Reduce secretarial overtime** now that they can type from home, as easily as they can at the office.
- **Get home on time more often** now that you can dictate on the road or from court, as easily as you can at the office.
- **Increase your entire staff's efficiency** now that every one of your staff can dictate easily using the **DigiTel** system.

Let us show you how with a live demo right on your pc !
